To: coughlan.laura@epamail.epa.gov
Cc: tatum.jana@epamail.epa.gov

Dear Laura

thanks for your prompt reply. we filled out DOT hazard class as class 8.

Attached please find revised one, we will send them to below mentioned Mailing address.

Thanks again.

best regards

Peter

The report looks almost complete - but the DOT hazard class is missing.
Please list the DOT/UN hazard class. Since the batteries are whole and
not drained, it would be likely be class 8.

To: Mia Kim <tmgmetal@gmail.com>

Cc: Jana Tatum <Tatum.Jana@epamail.epa.gov>

Hey Mia:

I got your overnight package. Unfortunately the annual report does not contain all required information concerning your export shipments during CY2011. Specifically, the RCRA hazardous waste codes and OECD hazardous waste codes, the waste description (your cover letter says battery shipment, but it is not clear that it was in fact spent lead acid battery shipments, and whether the SLABs were wet or drained), and the certification statement required in 40 CFR 262.87(a)(6). Attached is an optional Excel spreadsheet that contains all required items. You are not required to use it, but if you do you will have submitted all required information. The instructions are on the first page. Please note that the instructions ask that you email copies of the ".XLS" Excel document to me but asks that you mail the signed, official hardcopy document to the address listed in the regulations. I work in a different physical building.

(See attached file: Export Annual Report - Optional Submittal Format.xlsx)

Email me or Jana if you have any questions.

Sincerely,

Laura L. Coughlan, P.E.
